PARTNERING FOR A **GREENER** CURAÇAO

CARDBOARD WASTE COLLECTION SOLUTIONS

About us

Paradise Recycling specializes in the collection and export of cardboard waste from businesses across Curaçao that generate large volumes of this recyclable material. Our focus is on providing practical, sustainable solutions to help companies manage their cardboard waste efficiently and responsibly.

Our Mission

is to work closely with local suppliers and vendors, making the collection process seamless and hassle-free. We offer tailored services based on your operation's needs, whether through on-site vertical balers or bin-based collection systems.

OUR SERVICES

WHAT CAN WE OFFER?

BINS & STORAGE SOLUTIONS

Do you accumulate a high volume of cardboard each week that fills up your regular waste bin?

BIN PLACEMENT SERVICES DIRECTLY AT YOUR LOCATION

Based on your needs and the volume of cardboard, we can schedule regular pickups—once, twice, or even three times per week.

This service is ideal for businesses that prefer loose collection over baling and want a clean, organized solution for managing their recyclable cardboard.

EXAMPLES

VERTICAL BALER LEASE

This service is ideal for companies that generate a higher volume of cardboard—typically over 750 kg per week.

Using a vertical baler allows you to compact your cardboard on-site, saving space and keeping your operations organized. It's an efficient and easy way to accumulate and store recyclable material.

We will schedule weekly pickups of the bales you've collected, ensuring a smooth and consistent recycling process.

EXAMPLES

WHY WORK WITH US?

Environmental Impact

Reduce your landfill contribution and boost your sustainability profile.

Flexible Solutions

Baler or bin options tailored to your needs.

Cost Savings

Lower waste disposal costs

Reliable Collection

Regular pickups based on your volume and schedule
